

Morality in Media

Suggested Projects and Activities Amidst the Covid19 Pandemic

A. Media Awareness – advantages/disadvantages of media

1. Do “Pasa Inspirational”

Using our social media accounts, we post and share inspirational messages. We pass on news that are verified and not fake news.

We can be cyber missionaries. Whatever the prevailing conditions are, we continue to carry Jesus in our heart. Just bear in mind to be peacemakers not bashers, be evangelizers not self - promoters.

Just bear in mind that whatever you post is your responsibility and everything that you post is a reflection of you. Always think, pause and pray before you post anything because you are judged by what you show.

2. Poster-making and Slogan-writing.

The young as well as adult members of the family can do this to check on alignment of perception and values about Social Media.

This should show appreciation especially of the elderlies for the gift of electronic technology and social media especially now that we do some important things **online as the New Normal**.

B. Enrichment of Spiritual Life / Promotion of Christ Centered Life:

1. Family Rosary/2000 Hail Marys Devotion/Novenas

This Covid situation is a good time for us to have family prayer time

Ex. Family Rosary, 2000 Hail Marys Devotion, Novenas

2. The Blessed Sacraments :

Baptism and Wedding

(When opportunity allows and when situations already allow the faithful to go to church physically)

Encourage parents to have their little children baptized, or unwed couples to enlist in a church wedding.

At this time, spiritual blessing is as important as physical and moral blessings.

3. On to the Christmas Season, we bring back Christ to Christmas

Christmas Lantern-Making and Belen Display. This helps make Jesus as the focal point of Christmas.

4. Making Christmas posters and greetings with Jesus as the focal point for online forwarding
